There's a Touch of Tomorrow in all Cole does Today

COPYRIGHTED 1920
COLE MOTOR CAR COMPANY
INDIANAPOLIS, U. S. A.

*There's a Touch of Tomorrow
in All Cole Does Today*

A FORECAST of the future is the *Cole Aero-EIGHT*. In it ideals which seemed intended for fulfillment only at some distant time have become realities of the present.

The aim of its builders has been to be *first* in design—to lead the way to future improvements by changing staid tendencies and quickening the pulse of motordom to faster progress.

Coming as a distinct departure, the *Aero-EIGHT* has struck a chord of broad appeal. Individuality has been its dominant note. Originality has found expression in its classic contour and its mechanical advancements. It is as gifted in performance as it is radiant in beauty.

Striking in personality, sound in principle, the *Aero-EIGHT* marks a climax in a career devoted to creating the new. It is the herald of an advanced mode—a determining influence in establishing the vogue in motor cars for nineteen twenty.
